

Canvas Integration Guide

This guide will walk you through registering and deploying the Eartrainer.io LTI 1.3 Tool. The latest version of LTI requires that the integration between Canvas and Eartrainer.io be based on a trust created through OAuth 2.0. This trust relationship is established one time and must be performed by someone with Canvas administrative privileges.

Registration

- 1. Navigate to Admin -> Developer Keys
- 2. In the top right, click +Developer Key, then click +LTI Key
- 3. Fill in the following data in the form:

Key Settings

Key name: Eartrainer Redirect URIs: <u>https://app.eartrainer.io/launch</u>

Configure
